Persistent Foundation, in association with Sai Seva Charitable Trust Pune, successfully executed ‘Facial Cleft Surgeries’ on 15 children from economically weaker section of the society. Over the period of six months, these children were identified by conducting screening camps in rural parts of Pune district and were operated at Sai Shree Hospital, Pune.

Facial Cleft is a condition resulting in a gap that occurs due to lack of fusion of the lip or roof of the mouth during the first trimester of fetal development. In India, 1 in 781 births is a Facial Cleft case with male: Female ratio of 2:1. The percentage of facial cleft is higher in children from poor socio-economical background. This defect not only has a number of adverse effects from medical perspective but also creates tremendous psychological impact on the child and his/her family. However, the solution of this defect is pretty uncomplicated and involves a small surgery followed by speech therapy for few months.

Persistent Foundation sincerely thanks Dr. Pushkar Waknis, Dr. Neeraj Adkar, Dr. Samrat Sabhlok & Team from Sai Seva Charitable Trust for coming-up with such a noble initiative and executing the same successfully. This project was recommended by Neha Adkar, employee of Persistent Systems. Persistent Foundation looks forward to continue this initiative & bring smiles on many innocent faces 😊 !

Birthday Celebrations with Orphan Kids at Nagpur

Making a difference and bringing joy has been a constant motivation for the Sankalp team – Persistent Foundation’s Nagpur Wing. And that is what the team aimed to achieve by its initiative of celebrating birthdays of the kids at Balsadan orphanage.

This initiative combines the birthday celebrations of both - the kids at the Balsadan orphanage and the Sankalp team members, at the end of every month. The first step on this path has already been put forward. On 30th June, Sankalp team at Nagpur celebrated the birthday of 3 Sankalp members and 6 kids at Balsadan. The kids had a gala time in helping the team decorate their common room with balloons and streamers. 15 members and around 30 kids of the orphanage sang “Happy Birthday” in unison for the birthday boys and girls over the delicious cakes and snacks. All the expenses for the celebration were borne by the Sankalp members whose birthday was being celebrated. It was heartening to see that such a simple event touched the children so much that they had a hard time bidding a goodbye to the Sankalp team. The event ended amidst lots of candies for the kids and assurances that the team will be back again next month.

Facility Tour for Orphan Kids at Nagpur

Sankalp – Persistent Foundation team in Nagpur is rigorously working for orphanage kids in the field of education, either by taking classes on tough subjects in higher grades or by donating computers to increase the awareness of basic computer functions. Though the team had initiated many plans to make study easy & encourage the kids to study well, the motivation among the kids to make a good career was found missing. So our team planned to organize Facility Tour for orphan kids, to get a real sight of IT company which inspired them.

This event took place on 23rd June 12 in which around 200 children from Shraddhanand Anathalaya and Balsadan visited Persistent’s Nagpur facility. Sankalp volunteers conducted the facility tour for the kids. Children were totally fascinated by the infrastructure and facilities available for the employees. They kept asking endless questions out of curiosity about the company, kind of work, how to be a part of it etc. Many games were played at cafeteria by making groups and winners were given prizes. The eager wait was for the animated movie which was screened after games. Followed by movie, we had small music and dance session in which every kid danced to Bollywood beats wholeheartedly. Lastly snacks were distributed which they munched after common prayer at cafeteria. Volunteers worked hard to make this event memorable and fun. The program ended at 5.30pm, but instead of saying goodbye children kept asking, when will be called next time in Persistent?
